SPORTS INTERVIEW

By Omar Lopez, 6th Grade

I interviewed the Gymnastics coach so we can learn more about her gymnastics coaching knowledge. Coach said that what inspired her to be a gymnastics coach was that "she wanted to help children reach their full potential." She has coached this sport for almost 11 years! She likes to keep her classes interesting by "playing games while also learning." She also stated that her favorite way to exercise her kids is by playing on the trampoline. We are glad to have her in our school!

CLASSROOM COMMUNITY

By Manuel Carreno, 6th Grade

Ms. Gamio was asked about our FAST test, which students took in early December. She says "I think my students did amazing! They worked really hard to understand the new material given and there was tremendous growth shown compared to the 1st FAST Assessment. Two of the most important strategies I always urge my students to use is to make sure that they read through the questions carefully and understand what they are required to do. Additionally, I think it's important to be efficient with your time. You, as the test taker, understand what are your strengths and areas for improvement. If a question is giving you difficulty, flag it and move on to the next." That's some great advice! I think that our AcadeMir tigers are going to be well prepared for PM3 coming up soon!
