Emma Patino	Angel Gonzalez	Luis Tovio	Akos Breugem	Paula Hung		Maria V. U
	Luis Campa		Ariadna Vasquez			

TEACHER INTERVIEWS

By Sebastian Pabon, 6th Grade

This week I decided to interview Ms.Nunez who is a new teacher here at ACSEM. She started a few months ago and has been having a great time!

Q: How has adjusting to this school felt?

A: The students have made adjusting to this school a breeze. Appreciate the enthusiasm from my students. The administration, especially Mr.Cabrera, my science curriculum coach, have given me immense support in facilitating the transition for the students and me.

Q: What has been your favorite part of the year so far?

A: My favorite activity that I have done this year is the heart dissection with my sixth grade medical science classes.

Q: What are you looking forward to next year?

A: Teaching the 8th grade Biology class!
